Hiring Committee

Deloitte Canada — Technology, Strategy & Transformation

Toronto, ON

Dear Hiring Committee,

I am applying for the Analyst/Consultant position within Deloitte's Technology, Strategy & Transformation practice. I bring a finance foundation (B.Comm, Distinction) and hands-on experience designing analytics tooling, operating model playbooks, and AI-enabled workflows that connect technology initiatives to measurable business outcomes.

As an independent builder, I partner with clients to translate ambiguous needs into requirements, roadmaps, and change enablement materials. I have delivered Python/SQL analytics prototypes, valuation engines, and executive-ready dashboards with documentation that enables reuse.

Previously at Rosen Capital Advisors I led a compliance/operations platform integration, aligning stakeholders across Legal, IT, and Operations while reducing vendor spend by \$120K annually.

Deloitte TS&T's focus on technology strategy, operating models, and transformation is an ideal match for my interests. I am comfortable working in fast-paced,

collaborative environments, structuring complex problems, and communicating clearly with executives and delivery teams alike.

Thank you for considering my application ahead of the September 24 deadline. I look forward to the opportunity to discuss how I can contribute to your engagements and support your clients' strategic outcomes.

Sincerely,
Drew Williams
