Hiring Committee

PSP Investments

Montréal, QC

Dear Hiring Committee,

I am writing to apply for the Analyst/Senior Analyst, External Manager Selection & Monitoring role. I bring a finance background (B.Comm, Distinction) and hands-on experience evaluating managers, synthesizing quantitative and qualitative findings, and delivering memo-first recommendations to investment committees.

As an independent builder I created diligence frameworks that combine strategy scoring, factor exposures, drawdown history, and operational assessments. I automated monitoring dashboards (Python/SQL/Excel) that track performance, adherence to guidelines, and red flags—supporting timely reviews. At Rosen Capital Advisors I assessed co-investments and fund commitments, producing IC-ready materials that covered return expectations, risk, and fit with existing portfolios.

PSP's global mandate and disciplined governance are compelling to me. I value the balance of deep analysis and

relationship management required to select and monitor external managers effectively. I am confident that my diligence toolkit, writing discipline, and stakeholder coordination skills can add immediate value to the External Manager Selection team.

Thank you for considering my application. I would welcome the opportunity to discuss how I can support PSP's selection and monitoring processes across asset classes.

Sincerely,
Drew Williams
