

One-Page Fit Memo — Cenovus Energy Corporate Development Analyst

Candidate: Drew Williams · Calgary, AB · 403-618-6113 ·
bdrewwilliams@gmail.com

Why Cenovus

- Integrated portfolio (upstream, midstream, downstream) aligns with my experience modelling full value chains and synergy cases.
- Focus on disciplined capital allocation and ESG-conscious growth matches my thesis-driven analysis style.
- Hybrid Calgary location supports tight collaboration with finance, strategy, and operations stakeholders.

Relevant Experience & Impact

- **Independent Builder:** built integrated valuation models linking production, logistics, and refining margins; scenario toggles for crude differentials, carbon policy, and ESG targets.
- **Rosen Capital Advisors:** produced synergy models and integration plans for energy/infrastructure deals; led cross-functional diligence and achieved \$120K vendor savings via platform integration.
- **Private Equity Analyst:** drafted IC-ready memos for \$350M–\$3.5B energy transactions, emphasizing strategic fit and value creation pathways.

How I Work

- Start with clear investment thesis, KPIs, and risk register; maintain version-controlled assumptions.
- Engage technical experts early to align on operating metrics and commercialization timelines.
- Deliver concise briefs translating analytics into actionable capital allocation decisions.

Capabilities Snapshot

- Corporate development, synergy modelling, capital allocation analysis, scenario/sensitivity planning.
- Advanced Excel, Python, SQL, Power BI/Tableau prototypes; executive storytelling via PowerPoint.
- Stakeholder alignment, integration planning, ESG/market intelligence synthesis.

Availability

Based in Calgary with hybrid flexibility. Ready to join Cenovus's corporate development team immediately and support ongoing evaluations.
