Talent Acquisition

Alberta Investment Management Corporation (AIMCo)  
Edmonton, AB

Dear Hiring Team,

I am writing to express my interest in the Performance Measurement Analyst opportunity at AIMCo. I bring a finance degree (B.Comm, Distinction) and institutional-style reporting experience, including attribution analysis, benchmark comparisons, and memo-first narratives for investment committees.

As an independent builder I constructed performance dashboards that consolidate returns, benchmarks, and factor exposures across asset classes. Using Python, SQL, and Excel, I automated reconciliations, variance diagnostics, and KPI narratives that equip CIO teams with timely insights. During my tenure at Rosen Capital Advisors, I maintained P&L and VaR dashboards, supported attribution for partner reviews, and led a compliance/operations integration that improved reporting cadence while reducing vendor spend by \$120K annually.

AIMCo's mission and scale are compelling to me. I thrive in environments where data governance, accuracy, and

thoughtful interpretation drive decisions. The opportunity to work within an institutional performance team—ensuring metrics are rigorous and accessible to internal/external stakeholders—aligns well with my toolkit and professional goals.

Thank you for considering my application. I would welcome the chance to contribute to AIMCo's reporting cycles immediately, bringing analytical depth, documentation discipline, and clear storytelling to the performance measurement function.

Sincerely,  
Drew Williams
